-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of species 1 in the reply filed on 02/20/2008 is acknowledged.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-13 and 21-25 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1-3 and 6, the phrase "wherein the gate interconnection and a source interconnection are formed over a same insulating plane, in the first region, wherein the (island-like) insulating film is formed between the gate interconnection and the source interconnection, in a second region, wherein the gate interconnection and the source interconnection do not intersect in the first region, and wherein the gate interconnection and the source interconnection intersect in the second region" renders the claim indefinite. It is not clear how the gate interconnection and the source interconnection do not intersect in the first region and the gate interconnection and the source interconnection intersect in the second region since the claim recites the insulating film is formed between the gate interconnection and the source interconnection, in a second region.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-6, as best understood, are rejected under 35 U.S.C. 102(b) as being anticipated by Applicant Admitted Prior Art (fig. 7, pages 2-3).

Applicant Admitted Prior Art discloses a semiconductor device comprising:

a gate interconnection (705);

a source interconnection (707);

an (island-like) insulating film (706);

an active layer (702);

gate insulating film (703);

wherein the gate interconnection (705) and the source interconnection (707) are formed over a same insulating plane (701);

wherein the insulating film (706) is formed between the gate interconnection (705) and the source interconnection (707).
